EXECUTIVE SUMMARY

Integrated High-Voltage Solution for Bangalore Smart Grid

We propose a comprehensive, modular 132kV switchgear solution designed to support grid modernization with enhanced reliability, reduced environmental footprint, and operational flexibility for future expansion.

> **VALUE PROPOSITION:**
>
> Compact, reliable infrastructure enabling seamless grid integration with minimal installation time and space requirements

KEY BENEFITS:

- Enhanced grid reliability and uptime
- Accelerated project timeline with modular deployment
- Optimized use of substation real estate

- Future expansion capabilities with no re-engineering
- Total cost of ownership reduction through efficient operations

UNDERSTANDING OF CUSTOMER REQUIREMENTS

INDUSTRY/SEGMENT:
Power Generation

PROJECT TYPE:
New Project

LOCATION:
Bangalore, Karnataka

VOLTAGE LEVEL:
132kV

APPLICATION:
Grid Interconnection

MAIN CUSTOMER REQUIREMENT:

> Grid modernization with increased capacity and reliability

CUSTOMER PRIORITIES:

✓ Reliability

SCOPE OF SUPPLY & PRICING

Base Scope (Included)

PRODUCT	QTY	UNIT PRICE	TOTAL
33kV AIS 3-Bay Configuration - Reliable outdoor switching	2	₹31,25,00,00	₹62,50,00,00
132kV GIS 2-Module Setup - Compact high-voltage switching with integrated monitoring	1	₹54,00,00,00	₹54,00,00,00

Protection & Control IED & Automation Package - Advanced grid protection and monitoring	1	₹10,40,00,00	₹10,40,00,00

Base Subtotal:	₹1,26,90,00,00
Subtotal (Before Tax):	₹1,26,90,00,00
Tax (18% GST):	₹22,84,20,00
Grand Total:	**₹1,49,74,20,00**

IMPORTANT NOTES

Urgent follow-up required. Client prefers early delivery - expedited timeline appreciated. Ready to support accelerated implementation.
